Introduction

- Endorsed target 15.3. and LDN as strong vehicle for driving the implementation of the Convention
- Invited all country Parties to “**formulate voluntary targets** to achieve LDN” and to incorporate them in UNCCD NAPs

Building blocks for LDN Target Setting

1.

Leveraging LDN

OUTCOMES

- National Leverage Plan established
- Senior government and major international partners mobilized
- Multi-Stakeholder engagement secured

2.

Assessing LDN

OUTCOMES

- LDN baseline established & mapped
- LDN drivers & trends identified
- LDN legal and institutional environment analyzed

3.

Setting LDN targets & associated measures

OUTCOMES

- LDN targets established
- Measures identified
- Government high- level note developed

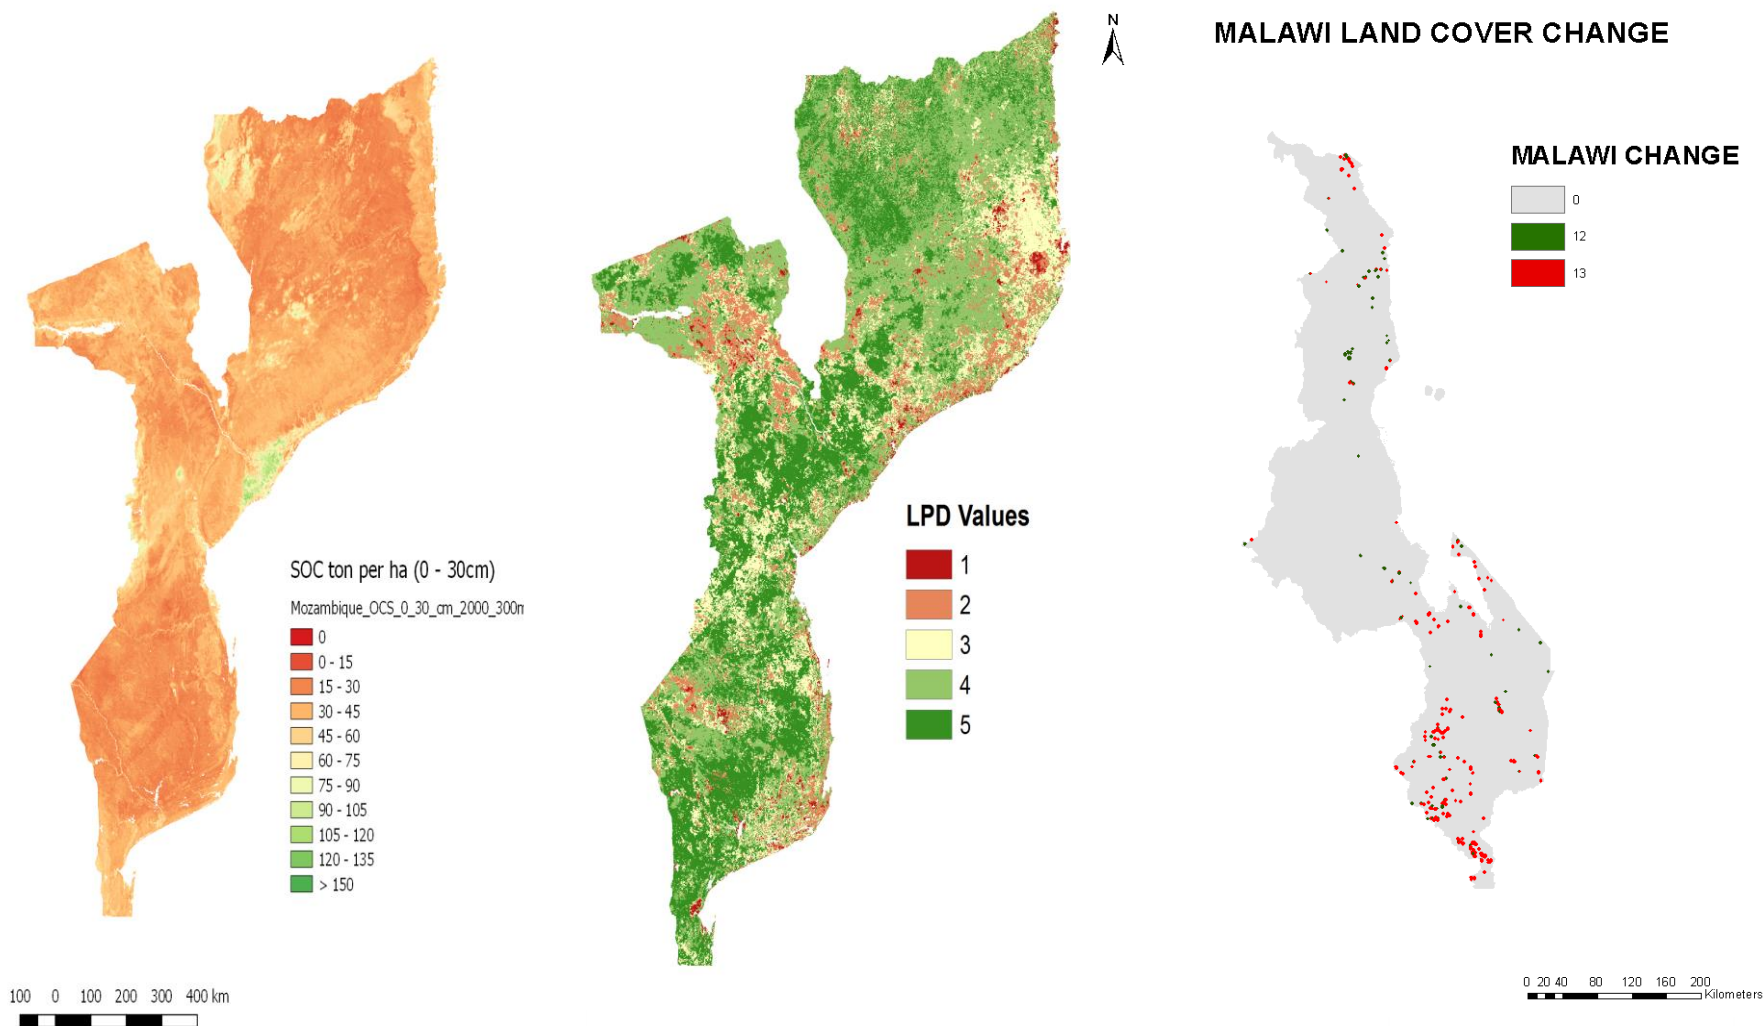

4.

Achieving LDN

OUTCOMES

- LDN is included in selected national policies and commitments
- Transformative LDN projects and programmes mapped out

Indicators

Target Setting

Targets to be ready by COPE13, Ordos, China, 6-16 Sept. 2017

Current initiatives & Plans:

- Targets are set in synergy with all existing initiatives being implemented:
 - AFR100
 - Bon Challenge
 - Great Green Wall etc.
- Plus all current National Plans & Strategies in the different government departments

Subnational Targets:

- Can be set if data is available or
- If most acceptable estimations can be made
- Will apply to Provinces/regions/districts etc.
- Is important to help with planning/implementing local actions

Madagascar have confirmed their targets

THANK YOU!
